Alfalfa Seed Production Research Program
Notice of the 2020-2021 Assessment Rate

To All Interested Parties:

Based upon a recommendation by the Alfalfa Seed Production Research Board (Board), the California Department of Food and Agriculture (Department) has established an assessment rate for the 2020-2021 marketing season on alfalfa seed which has been cleaned, or caused to be cleaned, for marketing for any purpose, during the period of April 1, 2020 through March 31, 2021.

The assessment rate for the 2020-2021 marketing season has been set at twenty cents ($0.20) per hundredweight (cwt.) on all alfalfa seed, with ten cents ($0.10) per cwt. assessed on producers and ten cents ($0.10) per cwt. assessed on conditioners (processors). This rate of assessment is the same as the rate that was established last year.

Funds generated from this assessment are used to conduct general production research for the California alfalfa seed industry.

As is customary, assessment report forms will be mailed periodically from the Board office to conditioners for them to calculate, deduct and remit assessment payments for producers and conditioners.

If you have questions regarding the California Alfalfa Seed Production Research Program, please contact JD Allen, Manager of the Alfalfa Seed Production Research Board, at (559) 591-4792. For questions about this assessment order, please contact Mirek Wilczek with the Department's Marketing Branch at (916) 900-5018.

Sincerely,

Joe Monson, Branch Chief
Marketing Branch
