

CALIFORNIA DEPARTMENT OF  
FOOD & AGRICULTURE

Karen Ross, Secretary

January 14, 2014

**NOTICE OF 2014 NOMINATION MEETINGS  
FOR THE CALIFORNIA ALFALFA SEED PRODUCTION RESEARCH BOARD**

To The Alfalfa Seed Producer or Conditioner (Processor) addressed:

The present three-year term of office for all members and alternate members of the California Alfalfa Seed Production Research Advisory Board expires February 28, 2014. In accordance with the marketing order for the program, the California Department of Food and Agriculture is calling meetings to receive nominations for persons eligible for appointment to serve on the board for a term of office from March 1, 2014, to February 28, 2017.

The districts are defined and the times and places of each nomination meeting are shown on the enclosed schedule. Representatives of the California Alfalfa Seed Production Research Program will be present at each meeting to receive nominations and answer questions regarding the operations of the program.

All producers and conditioners (processors) of alfalfa seed in California are invited to attend and participate in these meetings. To make nominations at the meetings for a representative of your classification, take part in preference voting or be eligible for appointment, you must be a producer or conditioner (processor) of alfalfa seed in your district. Entities that qualify in more than one district must choose the one district in which they wish to make nominations. Entities owned by the same person count as separate entities as long as each operation has its own legal standing. If you wish to nominate a person to serve on the board, you should determine the candidate's eligibility and willingness to serve prior to the nomination meeting. *Voting by proxy is not permitted.*

The results of nomination meetings will be used by the department in appointing members and alternate members to the Alfalfa Seed Production Research Board. If you have questions about these nominations please call J.D. Allen, manager of the Alfalfa Seed Production Research Board, at (559) 591-4792, or David Hillis, of the CDFA Marketing Branch, at the phone number below.

Sincerely,

Robert Maxie, Chief  
Marketing Branch
